### **Certificate of Compliance**

#### **ITRB 2**

This is to certify that the following Carbon Blacks were received by Laboratory Standards and Technologies having been previously tested and obtaining the following results.

#### **INDUSTRY TINT REFERENCE BLACK 2**

The original ITRB is no longer available. Tint data obtained using ITRB2 reference material will require correction of the end value according to ASTM D3265-11.

However, when using equipment calibrated with ITRB2 and following ASTM procedure D3265-11, the Tint value will be 100.

ITRB2 is not considered to be a CTAB reference material.  
CTAB has been withdrawn as an ASTM standard.
